### Profile

Computer engineering professional with strong skills in programming, hardware design, and full stack development. Passionate about building scalable solutions using technologies like JavaScript, React, Node.js, and MongoDB. I thrive in collaborative environments and enjoy solving complex problems with innovative, high-quality code.

### Skills

HTML

CSS

JavaScript

ReactJS

NodeJs

SQL

### Projects

#### **Samana Real Estate**, *MERN Stack*

A real estate management platform built using the MERN stack. It includes features like property listing, admin dashboard, authentication, and dynamic search functionality. Built during my office project work.

#### **Samana Luxury Rentals**, *MERN Stack*

A luxury property rental platform developed using the MERN stack. It features user authentication, property filtering, booking management, and an admin panel to manage listings. Built as part of a professional project at my workplace.

#### **OverTime Edge**, *API & Admin Development*

A mobile application project where I'm responsible for developing RESTful APIs and a feature-rich admin panel. The backend is built using Node.js and Express, focusing on data management, authentication, and smooth integration with the mobile frontend. This project is currently under development as part of my professional role.

### Courses

**B.Tech**, *Darshan University*  
8.31 CPI

11/2020 – 06/2024  
Rajkot

**H.S.C.**, *Shakti Higher Secondary School*  
63.38%

07/2018 – 03/2020  
Rajkot

**S.S.C**, *Kalyan High School*  
80.16%

06/2018 – 03/2018  
Rajkot

### Certificates

#### **SSIP Hackathon 2023**

attended SSIP Hackaton 2023 in team, worked as project manager and R&D department. qualified in first round.

#### **Google Cloud**

Completed Google Cloud Engineering learning path, through GDSC program.
